The mission of the Career Services Center is to assist students and alumni in identifying and reaching their career and employment goals, to help employers access an educated and highly trained workforce, and to support faculty and staff in providing opportunities to increase student learning and skill development. The Career Services Center offers the following:

- Career Advising to assist students in gaining self-awareness regarding goals and preferences, and to use that awareness in decision-making related to career planning and professional development. Individual appointments are available to review results of career and personality inventories, to provide assistance in setting career goals, to review majors and occupations that match interests and abilities, and to help students plan for and obtain career related experience prior to graduation.
- Career Library and Computer Lab to assist students with identifying career interests, preparing resumes and cover letters, improving interview skills, researching job openings, locating employers, reviewing employment trends, accessing online job vacancies, and conducting research related to the job market and potential employers.
- Career and Employment Management Online System, **TopJobs**, to allow students and alumni to search job postings, create and manage an online portfolio of their employment credentials, communicate with potential employers, and schedule interviews with recruiters coming to campus.
- Internships/Cooperative Education/Practical Work Experience to help students enhance classroom learning and validate their career decisions through career-related work experience and opportunities. Students are able to test their career choice in “real world” settings prior to graduation, earn college credit for career related work experience, receive pay for career-related employment, build their professional network, and increase their employability upon graduation.
- Graduate and Professional School information is available via the Center’s website. Students may make an appointment with a career counselor to obtain help in preparing for grad school interviews and the application process.
- Job Fairs to provide students and alumni a chance to meet with hundreds of employers to discuss the skills required on-the-job, and to apply for co-op, internship, full-time, part-time, summer and other employment related opportunities.
- Job Search Counseling to assist students with the preparation and review of resumes, cover letters, and job application materials. Assistance is available for locating company/employer information and learning job search techniques and strategies. Counselors can also assist with employment interview preparation and, by appointment, can conduct and critique mock interviews.
- Job Vacancy Postings to help make students and alumni aware of employment opportunities. Vacancies are posted and updated daily on **TopJobs**. Students and alumni may access **TopJobs** and listings for full-time, part-time, co-op, volunteer and other opportunities.
- On-Campus Recruiting to allow employers to recruit, interview and hire students to fill vacancies that exist within their individual organizations. Students and alumni may post their resumes online and schedule interviews with employers recruiting on campus – all through **TopJobs**, the Career Services Center’s web-based career and employment management system.
- Online Employment Portfolio to allow students and alumni to upload versions of their resume and other employment credentials and make them accessible to potential employers through **TopJobs**. Individuals may create multiple versions of their resume, update resumes at any time, and submit credentials electronically to employers. Employers registered with the Center may use **TopJobs** for recruiting potential employees among WKU applicants who have their resumes in the system.

Career Services Center services are available to all WKU students and alumni and to employers who maintain EEO compliance, follow affirmative action principles in recruiting activities, and adhere to the recruiting policies established by WKU and the Career Services Center.

WKU sponsors 19 sports and is a member of the Sun Belt Conference and the National Collegiate Athletic Association. WKU has won 82 Sun Belt Conference championships since the 1999-2000 season, 34 more than the next closest school. Eleven of WKU's 15 athletic programs have a cumulative grade point average of 3.0 or higher, and the average GPA of the 385 student-athletes is 3.05. WKU has had more individuals honored for their academic success by the Sun Belt Conference than any other league institution in each of the last seven years.

A comprehensive program of intercollegiate competition in forensic activity is afforded to qualifying students at WKU. Western Kentucky University's speech and debate team is consistently ranked as one of the top teams in the nation (having won both major collegiate national titles eight times since 2003). Created for the express purpose of increasing the retention and graduation rates of program participants, the Student Support Services program provides comprehensive continuing academic assistance for 225 undergraduate students with academic potential who meet financial guidelines, and/or are from families where neither parent holds a bachelor's degree or are a student with a documented disability. The project offers individualized peer tutoring in a wide variety of developmental courses; professional counseling for academic, personal, and career concerns; restricted sections of UE 175 (University Experience) that are limited to 20 fall freshman participants; and provides access to campus and community cultural events. In addition, participants in good standing earn priority status each semester during the course registration process and are eligible to share in supplemental grant monies awarded annually by the US Department of Education earmarked exclusively for Student Support Services participants. The program, in coordination with the Office for Student Disability Services, also offers individual assistance to qualified students with disabilities (including learning disabilities) in need of accommodation. All services are free of charge to qualifying students. Students seeking assistance who have yet to achieve junior standing can determine their eligibility and apply for services at the program offices or call (270) 745-4308. Applications are reviewed on an on-going basis. Admission to the program is not guaranteed. A successful applicant must be academically motivated and committed to participating in all aspects of the program.

An educational outreach program, Upward Bound provides academic classes, counseling, tutoring, and cultural/social enrichment activities to eligible high school students in a five-county area (Allen, Butler, Edmonson, Hart and Logan). Program participants, who have potential to succeed in college and/or career-technical school with some additional academic/motivational support, must meet federal financial guidelines and/or be from families where neither parent holds a bachelor's degree. Specific individual/group activities covered throughout a student's participation in the program include career information, study skills information, ACT preparation sessions, college admissions information, and financial aid workshops. Individual counseling sessions take place with each student at his/her high school throughout the academic year with tutoring and cultural enrichment sessions being offered one Saturday per month. Students participate in a six-week summer residential program at WKU, which emphasizes academics and cultural/social enrichment. After high school graduation, participants have the opportunity to enroll in up to six college credit hours for which Upward Bound is financially responsible. In this way, participants get a "first-hand look" at college life and an academic boost from the Upward Bound program.
